ZEISS Industrial Metrology
Your Quality Network

The Industrial Metrology business group is a leading manufacturer of multidimensional metrology solutions. These include coordinate measuring machines, optical and multisensor systems and metrology software for the automotive, aircraft, mechanical engineering, plastics and medical technology industries. Innovative technologies such as 3D X-ray metrology for quality inspection round off the product portfolio.

Products Systems The full range of measuring machines
Coordinate Measuring Machine
Reliable, high-quality measuring technology Optical Metrology
Simple and reliable: Optical measurements Surface, Contour and Form

Measuring Machines
Maximum precision is our world Computed Tomography
Measuring Technology of the Future
Sensors A 360 degree view
Tactile and Optical Probes on CMM
The perfect solution for your application Optical Sensors on Robot
Automated Solutions Stand Alone Sensors
3D scanning and process inspection
Software Easy Solutions to Challenging Tasks. Measuring, evaluation and

management software enables you to increase the performance of all your metrology operations. ZEISS GUARDUS
One for all and all for one. ZEISS CALYPSO
The easy way to get from the drawing to the measurement ZEISS CALIGO
Specialist for freeform surfaces ZEISS NEO insights
Easily visualize and analyze CT volume data ZEISS PiWeb
Perfect control of all important data. Everywhere. ZEISS colin3D
Software for optical 3D sensor systems ADAMOS
Adaptive Manufacturing Open Solutions AccessoriesExploiting your full metrological potential - The ZEISS accessories are perfectly matched to your metrological requirements. Whether rotary connection elements, clamping devices or cabinets for the safe storage of your styli - with our accessories, you can fully exploit your metrological potential. Stylus systems
The first contact with your workpiece Machine accessories
